

GRAND RAPIDS RAPIDS TRIBUNE.

VOL. XXXII, NO. 25

Grand Rapids, Wisconsin, Wednesday, Oct. 18 1905.

DRUMB & SUTOR, Publishers.

RUBBER!

Yes, sir—there are a few things you can't help doing. If you're looking for good things in the way of lumber and building material, you ought to look this way and when you've had a look—you can't help but buy.

Why? Well, there's two reasons:

The stuff is all the best grade, and the price is right.

And say, have you seen our Intruder Roofing?

It is the best roofing on the market and we can make you a price on it that will tickle you.

Better drop in and have a look.

COLIC, CHOLERA AND Diarrhoea Remedy

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

Price, 25c. Large Size, 60c.

Making Ready to Farm.

Some little time ago a representative of the Tribune visited the marsh lying northeast of the city where B. G. Eggert is engaged in doing some dredging with a view to doing some dredging and converting it into farming land, and it was quite surprising to note the progress that has been made. There had been dug about two miles or more of the main ditch, which commences at the river near the club house of the Crooked Rift Rod and Reel club and runs back thru the middle of the marsh. There is a steady stream of water flowing down the ditch, showing the immense amount of water that is carried away by this one ditch.

Following along up toward the head of the ditch it was plain to see just how deep the muck was on the marsh, and it was evident that it ran from a foot and a half to eight feet. This muck being visible, and Mr. Eggert states that there are places where the black muck is ten feet thick. With this much black soil on top of the sand it would seem as if it would prove first class farming land.

In going over the marsh it is plain to see what has been accomplished by even this one ditch. In places where the water has been removed it is now perfectly dry, and this condition of affairs excites for a long way back from the ditch. When the work was commenced it was expected that it would be necessary to put in a large number of laterals, but from the appearance of things now this may not be necessary.

From the appearance of things one would be led to believe that this is going to make an exceptionally good piece of farming land, and there is little question but what the day is not far distant when all of this big marsh will be cultivated.

Awarded Plaintiff \$2,000.

The jury in the case of Fred Redington vs. the town of Rock brought in a verdict for the plaintiff of \$2,000 on Sunday evening after having been out over twenty-four hours. The case went to the jury on Saturday evening, after having occupied the attention of the court during the past five days.

The plaintiff claimed damages for injuries which were received while passing over a highway in the town of Rock, and alleged that the trouble had been caused by a deep rut in the road, a place that was in such bad repair that it should have been fixed up by the authorities of the town. The plaintiff had been seated on a load of wood when one wheel of the wagon went into a rut with such violence that one of the stakes holding the load was broken and the young fellow on the load was thrown violently to the ground, sustaining quite serious injuries.

The case was tried once before, on which occasion the jury disagreed. It was claimed by the defendant that while the injuries might have been sustained as claimed, that it was not the fault of the town. That was not the fault of the town. That the rut in the road was no worse than is usual in any country road where it is a new community where comparatively little work is done on the highways.

Birch Lodge in Danger.

Nekosia Times.—Forest fire across the river last Monday evening came near wiping out Birch Lodge resort. A strong wind was blowing and the fire approached within 100 feet of the buildings before the men fighting the blaze had succeeded in preventing its further spread. A light rainfall aiding them in the work.

The fire was probably kindled on the river bank above and after they left the strong wind fanned the coals into bounding flames which spread over an area of about thirty acres. Too much care cannot be taken in extinguishing campfires as, in this case, even the fire appears to have died out, a little breeze soon brings it to life again. The best way is to thoroughly soak the place with water, making sure no fire remains before leaving. If this rule were carefully observed there would be fewer forest fires and little danger to buildings located in the woods.

Real Estate Transfers.

Wausau News.—The following real estate transfers were filed in the register of deeds office since our last report:

Grand Rapids Lumber company to the John Weeks Lumber company parts of sections 5, 6, 7, 8, 16, and 17, township 26, north of range 6. Consideration \$1.00 and other valuable considerations.

Grand Rapids Lumber company to the John Weeks Lumber company, the east quarter of section 13, township 26, north of range 6. Consideration \$1.00 and other valuable considerations.

The Grand Rapids Lumber company to the John Weeks Lumber company parts of sections 5, 6, 7, 8, 9, 17, township 26, north of range 6. Consideration \$20,000 for this and other lands.

Plenty Of Room In Wisconsin

There is room enough in Wisconsin yet, Forest county, of which we hear so much, has in its borders only 1400 people, most of them in Grandon. There are three times that number in the sixth ward and Fair Oaks. Forest county has 1,421 square miles, hence there is quite one settler to every 540 acres of land within its borders and mind it, it has taken eighteen years to gain this growth including its recent wonderful boom.

—Madison Journal.

Played An Even Game.

The first game of football of the season was played at the fair grounds on Sunday. It was between the city team of Wausau and the home team, and notwithstanding the excessive wind and cold weather a good crowd turned out to see the game. It resulted in a score of 6 to 6, each side making a touchdown and subsequently kicking goal.

The game started by Wausau kicking off to Grand Rapids. The home boys took the ball and made rapid advances into the enemy's country, the visitors being unable to hold them for downs at all, and this continued until the ball was within fifteen yards of Wausau's goal, when a fumble gave the ball to the visitors.

Then there was a repetition of the first part of the game, the only difference being that Wausau had the ball and Grand Rapids was unable to hold it. Wausau made fairly good advances, but were finally compelled to punt, putting the ball well down toward the Grand Rapids goal. Then after a short play Wausau got the ball again and carrying it around the end made a touchdown. Goal was kicked and the score stood 6 to 0. The play had only fairly started when time was called for the end of the first half.

The home boys seemed to brace up some at the beginning of the second half and when they got the ball they fought the way, foot by foot toward the visitor's goal until they kicked a touchdown, after which they kicked a goal and tied the score. After this neither side was able to gain anything and the game ended without anything more being gained by either side.

The game was an exceptionally clean one, and was in marked contrast to some that have been played in this city in the past. Both sides played to win, but they did it without trying to kill off the members of the other team.

Beel Wins Another.

Fred Beel, the strong boy from Marshfield, is still in the east and is showing the people down there that the state of Wisconsin does not consist entirely of Canada thickets and bulging brows, even the such an impression at times seems to predominate in that intellectual section. His latest victory occurred at Cleveland, Ohio, where he wrestled with one Yankee Rogers on the evening of the 11th instant.

It seems that Yankee was conceded to be the whole works down Cleveland way and so confident were his friends that he could make short work of the Wisconsin man that they put up \$500 on the match. Rogers weighed something over two hundred pounds, and the newspaper reports of the affair say that the difference in size between the two men was so marked that everybody thought Rogers would win in a walk. However, they were mistaken.

It took Beel just nineteen minutes and it took Beel just nineteen minutes to win the five hundred dollars. The newspaper report also says that it only took Beel two minutes to convince the crowd that they had placed their money on the wrong man, for in that time he had got Rogers' shoulders onto the mat, but the fall was not given him because the referee had not been in a position to see it. This occurred just ninety seconds after they had started in. The first fall was won in ten minutes and the second in nine.

In Cleveland they designate Beel as the Western Wonder and seem to think he can handle almost anything since he bested Rogers.

Making Artificial Stone.

The American Hydraulic Stone Co. set up one of their machines on the west side last week, and it has since been running on artificial stone for the new Baptist church. The stone made by this machine differs from the ordinary concrete blocks only from the fact that the block is subjected to hydraulic pressure while it is being made, there being a pressure of thirty-five tons on each block, which the manufacturers claim makes it much more solid. The blocks for the new church will be made with a smooth surface, somewhat different from the usual run of this sort of work.

A New Agent.

A new agent has been installed in the Northwestern office in this city in the person of T. J. Zoelle, who comes here from Ripon. Mr. Willard, who has had charge of the depot since the road was built thru here, has been transferred to Neenah, where he will look after the company's interests. Mr. Willard has made many friends here who will be sorry to hear of his departure but will wish him success in his new location.

Hallowe'en Dance.

There will be a dance at the opera house on Tuesday evening, Oct. 18, by the Imperial orchestra. This orchestra has played in public a number of times and it has never failed to give excellent satisfaction, and those who are looking for a royal good time should not fail to attend this dance.

Oberbeck-Doughty.

At five o'clock this afternoon occurs the marriage of Harry Oberbeck to Kinda Doughty, the ceremony occurring at the residence of Mr. and Mrs. Louis Oberbeck, parents of the groom. Rev. Bann will perform the ceremony. They will be attended by Bertha Oberbeck, Myra Doughty, Emil Knapp and Louis Oberbeck. In the evening a reception will be held at the home of Mr. and Mrs. Louis Oberbeck.

Successful Experiment.

The spraying of potatoes to prevent blight and rot has been proved successful on a farm near Wausau. The Post of this city says:

Tuesday afternoon Prof. Sandsten of the Wisconsin Experiment station, and James G. Milward, who did the spraying, superintended the digging of potatoes on the S. S. Chandler farm, two miles south of the city, which had been sprayed during the summer under the direction of the Experiment station. The potatoes were nearly all Carman No. 2, and those which were sprayed were on seven acres of a large field.

The vines were sprayed at various times during the summer with what is known as Bordeaux mixture, part of them being sprayed but once, part twice, part three, four and five times, at intervals.

The demonstration, which was witnessed by about 100 people, proved beyond question that the spraying was beneficial, for in the same field the potatoes which were not sprayed showed blight and rot, while those which had been sprayed showed no blight, and but a few hills were there any rot. Mr. Chandler states that he considers the sprayed potatoes from 10 to 25 per cent better yield than those which were not sprayed. The experiment was a great success, and amply proved the efficiency of the plan.

Mr. and Mrs. Mullen Entertain

Mr. and Mrs. T. E. Mullen entertained about eighty of their friends on Tuesday evening at their home on High street, and a very pleasant evening was spent by those present in playing cards. The occasion of the happy event was the wedding anniversary of Mr. and Mrs. Mullen, and they left no effort undone to make the occasion a pleasant one for their guests.

The principal amusement of the evening was cards, the game being hearts. Mrs. A. G. Miller was given a prize for her excellent playing, having outstripped her competitors. Several points, while Mrs. John A. Gaynor received the consolation prize. In a shirtwaist contest, which was a guessing game, Mrs. T. A. Lyle won first honors, while E. M. Pease was last in the race.

At the conclusion of the card games refreshments were served and a social time indulged in, and it was considerably after midnight before the guests came to a realization of the fact that there was any such place as home. The guests presented Mr. and Mrs. Mullen with a souvenir of the occasion and when it came time to go home they united in wishing Mr. and Mrs. Mullen many happy returns of the day.

McPherson is Caught.

John McPherson, the desperado who broke out of our county jail some time ago, since which time he has been at liberty, was caught at his home near Marshfield last week, and was subsequently delivered over to the authorities here.

McPherson has been in the wilds of the Dakotas and Minnesota since he left here, where he succeeded in making a little money, and he claims that it was his intention to return and make it with his family, after which he would serve out his sentence, and then go back and live with his family.

McPherson is a queer character, and when not under the influence of liquor was of very quiet and good natured disposition, and well liked by his friends and associates. He is a Welshman by birth, and when under the influence of liquor a trifle basty in his temper. It is times led him into trouble. It is probable that he will not get another chance to escape from the authorities here.

Lost an Arm.

Henry Frechette, who is employed in the planing mill at Pittsville, met with a horrible accident on Monday while at work. He was engaged in shifting a bolt or running it onto a pulley when he became caught in the machinery in such a manner that his right arm was torn off near the elbow. He was given surgical assistance at once and it was found necessary to amputate the arm at the shoulder.

Frechette is a brother to George Frechette of this city. He is a single man. He was raised in this city and is well known by our older residents.

BUSINESS COLLEGE NOTES

Clarence Moore of Hancock enrolled in the bookkeeping and business practice department this week.

Another new Smith Premier typewriter, also a typewriter table and several adjustable typewriter chairs have recently been added to our equipment in the shorthand and typewriting department.

We are glad to note that Earl Chamberlain, who underwent an operation for appendicitis last week, is now recovering and will soon be with us again.

All the students are taking a lively interest in their work, particularly in penmanship and rapid calculation. Speed tests are given frequently and the results show a marked improvement.

Visitors are always welcome.

New Proprietor in Charge.

Chas. E. Lester, who recently purchased Otto H. Slower's meat market, business, and good will, took charge of the Wood County Meat and Provision Market on Tuesday. The new proprietor is familiar with that line of business and will enjoy a splendid patronage. —Nekosia Times.

Connor Wants to Know.

The Milwaukee Daily News publishes the following, which is supposed to come from Madison:

Notice has been served on friends of Gov. LaFollette by members of the personal representatives of W. P. Connor, that the governor must, whether or not, be elected. The demand is that as soon as Governor LaFollette arrives in the state again he must make public announcement as to whether it is his intention to resign as governor and enter the United States senate or whether it is his plan to remain chief executive of Wisconsin and call a special session of the legislature for the election of a United States Senator.

The reason for this notice undoubtedly lies in the fact that the rumors are now prevalent that Gov. LaFollette is laying the wires for the election of Lane Stephenson as United States senator at a special session of the legislature to be held in the near future. Upon investigation Mr. Connor has decided that those rumors may not be entirely groundless and in defense of his own political future he has decided the step he has taken is necessary.

It has been Mr. Connor's plan all along to be a candidate before the primary elections next spring for the republican nomination of governor. If Gov. LaFollette is not going to the United States Senate, Mr. Connor is willing to modify his ambitions from governor to the upper house of congress. He wants to know, however, so that he may be able to begin his campaign, if it is before a special session of the legislature that his fight must be made.

Teachers at Stevens Point.

A large number of the city teachers went to Stevens Point on Friday to attend the sessions of the Northwestern teachers association which were being held in that city. There were over seven hundred teachers in attendance from out of town and the meeting was a most successful one. Prof. W. S. Youker of this city was elected president of the association for the ensuing year.

One of our local teachers who was in attendance at the meeting writes the following concerning it:

The annual meeting of the Northwestern Wisconsin Teachers Association at Stevens Point last Friday and Saturday was one of the most interesting and successful in the history of the association.

Besides papers and discussions by local educators, Prof. Gary read a paper on Facts and Fundamentals in Education, Prof. Fish of Wisconsin University lectured on The Value of American History in the High School, Friday afternoon, while Prof. Geo. Vincent of Chicago University talked Friday morning on Children as Grown-ups, and in the evening delivered the annual lecture, his subject being The Psychology of the Mob. Prof. Vincent is one of the most popular speakers on the lecture platform today.

At the business meeting Saturday morning Sept. 16, S. Youker was elected president of the association for the ensuing year. Considering the fact that Lawrence University and Ripon College put up prominent members of their faculty as candidates for the presidency, Grand Rapids feels especially gratified that our candidate was successful. Mr. Youker received 143 votes, the next highest candidate receiving 48.

A few of the cities included in this association are Manitowish, Green Bay, Marinette, Appleton, Neenah, Menasha, Merrill, Wausau, Stevens Point, Marshfield and Grand Rapids. The attendance this year was about 700, an increase of nearly 200 over that of last year.

The excellently planned and ably executed program showed a wide awake and progressive spirit in educational circles in this part of the state and must prove a source of inspiration to the teachers attending.

Baptist Church Notice.

Sunday, Oct. 22: Morning sermon subject, "The Top of the Ladder." Evening sermon subject, "Loves Thou Me?" Strangers always welcome. Meetings at Spafford's hall.

Must Build Fishways.

The Kalamazoo Times says: A representative of the state fish department of Michigan was in the city a few days ago and conferred with the owners of water power in Grand Rapids to build fishways in the city. It is probable that some arrangement will be made with the government to build the fish ladders, and it is hardly possible that the state legislature can make a law compelling the United States government to do a thing of this kind unless it is agreeable to the owners in charge.

The law passed at the last session of the legislature says it shall be the duty of each and every person, persons, firm or corporation, owning, managing, occupying or having in charge any dam, levee, pier, or other obstruction in this state to keep and maintain such fishways in good repair and open for the easy and free passage of fish up and down each stream or river from the first day of March until the first day of June next ensuing in each and every year after said fishways have been built and constructed.

The fishway known as the "Novum Scotia Patented Fishway," of which plans and specifications are on file with the commissioner of fisheries to furnish free of expense to any person or corporation required to place such fishway in his or its dam, boom, pier or other obstruction, the plans and specifications of the fishway hereby adopted. The commissioners shall, between the first day of August and the first day of October next ensuing in each year cause all dams, booms, piers or other obstructions in rivers, streams or other bodies of water to be examined and shall order and shall cause to be placed thereon such fishways as may be deemed proper and such fishways shall be placed in the location prescribed by the commissioner.

The plan calls for a fishway five feet in width and one foot high, to be placed down below the crest of the dam and to extend to the main with an incline of two inches to the foot. There are to be two above in it, making the total cost of each dam from \$150 to \$200.

The penalty attached to a noncompliance with the above is from \$25 to \$100 for each week that the fishway is not in place and in working order.

Bound Over to Circuit Court.

Mrs. Minnie Krouble, the woman who shot Miss Clara Peterson at Stevens Point some time ago, had her hearing on Monday, and as a result she was bound over to the circuit court with bonds fixed at \$500. The woman, that was said to have recovered sufficiently so that she is able to be about, and is considered to be out of danger.

The shooting was caused by the Kroubles woman being jealous of Miss Peterson, who ran a restaurant.

A Big Church Fair.

The ladies of the Catholic church of this city will hold a fair at the Opera House on Tuesday, Wednesday and Thursday, October 24, 25, and 26, commencing Tuesday noon. On Wednesday supper will be served, commencing at 6:30 o'clock. There will be baked chicken, mashed potatoes, baked beans, brown gravy, salad, pickles, cake and coffee. On the closing night, Thursday evening, the different contests will be held, and after this there will be a dance. Refreshments will be served during the dance.

A. J. Nichols, the east side fruit dealer, is engaged in placing a lunch counter in his place of business and will soon be fitted to serve lunch and meals at all hours of the day and evening. There is now no place on the east side where a laded wayfarer can obtain a lunch and no doubt the place will be appreciated and patronized.

Boudoir Confidences

Fashion declares we must array ourselves in stripes.

Satin seems to be especially dear to the dressmaker's heart.

Waits should will not be called in until the first frost comes.

Observe the preponderance of the chenille hat in the milliner's window?

Black broadcloth is the dressiest choice possible for the autumn tailor-made.

The costume at the left is of deep velvet cloth. Two ruffles bordered with silk braid and headed by soutache encircle the bottom of the skirt. The bolero is trimmed with the braid and soutache, and has shoulder ruffles, also bordered with the braid. The collar and wide girdle are of velvet. The full sleeves are finished with flare cuffs, bordered with the braid. The other costume is of blue and white checked wool. The bell skirt is trimmed at the bottom with straps of the material attached by button blouses is covered with a pattern of brown cloth, bordered with a ruffle of the same, the fastened with buttons. The are trimmed with soutache, the ones also ornamented with The turn-over collar is of velvet, bordered with a lace ruff girdle is also of brown velvet in front with a gold buckle. The sleeves are full at the top, finished with deep tight cuffs, and od with buttons.

close a case can vouch for the truth of the statement." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Ten days' trial leaving off coffee and using Postum is sufficient. A grocer.

to only 1.63¢ a pound.

California Fruit.

Up to the middle of September 4,800 carloads of California green fruit were shipped east.

Mr. Mackay's other property is worth \$50,000, besides some valuable real estate.

Mrs. Mackay's Other Name.

Mrs. Mackay is known in London as "the silver queen."

great soap manufacturer, will be probably the most expensive monument of the kind in the United States over the grave of Dandy, her horse.

of any busy woman as white, untanned and pretty as if she was under the constant care of a city manicure. It's truly "The Dainty Woman's Friend," in the suburbs or on the farm.

Those ugly dark brown streaks on the neck, arising from tight collars, and the line where the sunburn stops, can be wiped out by the velvety lather of HAND SAPOLIO. It is, indeed, "The Dainty Woman's Friend."
